

my@utover

Find all the products you need and more

www.b2bautover.com

my@utover is an exciting e-commerce service that is available to Saint-Gobain Autover customers all over the world. It enables you to do your autoglass business on-line, 24 hours a day, 7 days a week.

my@utover is a secure, on-line solution which enables you to place orders, view up-to-date product information, check your account status and order history, view and print invoices and delivery notes and acces reports.

● Product database

my@utover's up-to-date product database contains every product in our range. So that you can identify the products easily, we have added a wide range of pictures and model drawings to our catalogue. You will find not only product images, but also pictures of details such as silk printing and sensor brackets. Drawings are also available so that you can see the position and kind of moulding the glass has.

We offer a full package of glazing products and related materials such as accesoires, bonding solutions and tools.

● Extra benefits

my@utover offers a range of extra benefits including:

- Sophisticated search engine
- User-friendly navigation
- Direct acces to stock availability
- Advice on accesories needs
- Option of creating "My favourites"
- Information about interchangeable products

Contact your local SG Autover representative to create your my@utover account and find out what my@utover can do for you.
